We Dedicate

In appreciation of his years of dual service—both education and enjoyment—to the students of Ford City High School. We thank you, Mr. Englert, for all that you are famous for ... conducting finger exercises in your Junior High classes ... lurking in a semi-dark 213 due to your penchant for showing movies ... instilling us with loyalty to Ford City ... transforming World Cultures into World and Ford City Cultures ... being OUR man in the town council ... being willing to discuss anything ... smiling as you speed down the hall ... sponsoring the Penn-Ford Junior Historians and those birthday calendars (even though you slipped every member of your family into them!!!) ... surviving the field trip to Philly ... teaching in your own special way ... trying to keep us from becoming apathetic ... being yourself. For these and for all the intangible, unsaid things that you have given us, we thank you and dedicate this yearbook to you.

THE CLASS OF 1970

For your films, your interesting classes, your help as a club sponsor, and for just being Mr. Englert . . .

THANK YOU

CAROLYN ZURNEY
Hope
A sharpshooter for the G.A.A. ... six year member of the chorus ... often accompanied by Patty K., Esther J., and Twila G. ... likes swimming and football games ... dislikes a "certain crowd" ... "'Oh, this is ignorant!" ... plans to find a good job.

CLASSES

Under the sign of Libra, the scales, hundreds of underclassmen spent their year at Ford City High. These students exhibited the traits of friendship, fairness, activity, and school spirit. Libra has given them much to remember of their year ... chorus ... parties ... their first Snowball ... peddling Rex ... a strange new building ... "The Heiress" ... World Culture's movies ... getting lost in the halls ... freshman trip ... making new friends ... undefeated basketball team ... dances ... student council elections ... going steady ... Mr. Martucci ... the Hoagy Shop Scandal ... Roxy theater ... "We got the jolly, jolly juniors ..." ... gangs ... running across the street in the snow ... wearing coats all day ... cafeteria food ... studying hard ... passing notes ... Monday night football games ... food battles in the cafeteria ... "borrowing" library passes ... a new weapon discovery—rubber bands ... "Look at the mutes!" ... Junior class picnic ... history projects ... "The Scarlet Letter" ... everything at FCHS!!!

ACTIVITIES

Under the sign of Sagittarius, the archer, are activities. Indicative of harmony and active participation, Sagittarius reminds us of ... homecoming 1969 ... making flats for the play ... Bobby C. as a nervous character ... traveling to Kittanning for competition in the academic games ... when OUR team went to Florida ... meeting deadlines (and missing them) for the yearbook ... decorating for the snowball ... "Arsenic and Old Lace" ... everything that happened at play practices ... the revenge of homecoming '69 ... battles over the yearbook ... after-snowball parties ... voting for courts and queens ... the beautiful stage for our Junior class play ... Bob Orton looked like a monster, didn't he??? ... the light room vs. the dark room ... the time we came in last in an academic game! ... all that the activities section suggests or encompasses.

Homecoming 1969

The girls selected by the students for the Homecoming Court ot 1969 were: *(standing)* Nancy Varholla, Belinda Blaniar, Marian Lorence, Delores Mikula, Sandy Peterson, Terry Mohney, Linda Alcibiade, *(seated)* Nancy Peters, Gloria Pisoni, Carol Wolk, and Cammy Suwala. Nancy King *(center, kneeling)* was chosen as the Homecoming Queen.

ATHLETICS

Under the sign of Gemini, the twins, the athletes of Ford City High School learned to work and win together as a team and developed the characteristics of fair play, fellowship, determination, spirit, and a greater understanding of one's fellow sportsmen. Those engaged under the sign of Gemini can recall . . . Duke B. missing the Apollo-Ridge game . . . Ford City's newest sport—totem pole stealing . . . the bread wagon . . . "Li'l buddy!" . . . P.O.'s peg leg after the Kittanning game . . . "Hit that line!" . . . Fatty Liver . . . Who's obsessed with basketball??? . . . summer practice and flu shots . . . when the SENIORS beat the juniors in tabby football, and the onside kick . . . how Mr. A. loves to see blood . . . stopwatch . . . the coach that doesn't talk *to* you . . . cheerleader camp . . . when Denny leads the pack . . . G.A.A. . . . when they climbed the wall in the gym . . . when Stan brought in the wrong play . . . when Marv made Iron Ore rusty . . . the wrong-way meet with Hampton . . . tabby football at Lenape . . . what was Marv cutting up the last day of football practice? . . . when Chuck had his jersey on backwards . . . cheerleader practice in the park . . . CI-CER-O!! . . . how girls and sports aren't supposed to mix Kittanning versus Deer Lakes . . . year of the CAT-astrophe . . . school spirit . . . how our sports gave FCHS a sense of unity.

MUSIC

Under the sign of Virgo, the maiden, those involved in the musical activities learned co-operativeness, self-discipline, and an appreciation of music and beauty. Even though the period of Virgo has ended for them, there is much to carry it on . . . "make it smultzie" . . . long, tiring, cold, repetitious practices in the Lenape swamp . . . "Friends of Distinction" . . . 99° weather parades and 10° weather football games . . . the homemade chorus Christmas tree and the angel on top . . . the "turtles" in the FCHS band . . . the pre-game practices with Kittanning . . . "sound like men!" . . . "8 to 5" . . . "A Tribute to Romberg" . . . the new, perfectly fitting (??) majorette uniforms . . . the Abe Lincoln hats and Fred Astaire canes . . . "you owe me 'a quarter" . . . lift those legs and *SMILE*!! . . . tryouts . . . monkey hats with genuine ostrich plumes . . . Glow-ria . . . "this note gets two beats" . . . "do it again" . . . "write five hundred times" . . . "Who booed the band?" . . . Who SNORTED on the Band bus??? . . . those wild band buses . . . Winchester . . . all the fun . . . Graduation night—the last time you performed for FCHS.

MRS. VALASEK

Mrs. Valasek,

The graduating class of 1970 wishes to express to you sincere appreciation for all that you have done for us. Although you have only been with us for a year and a half your hard work has transformed our chorus into one that any school would consider excellent.

Thank you,

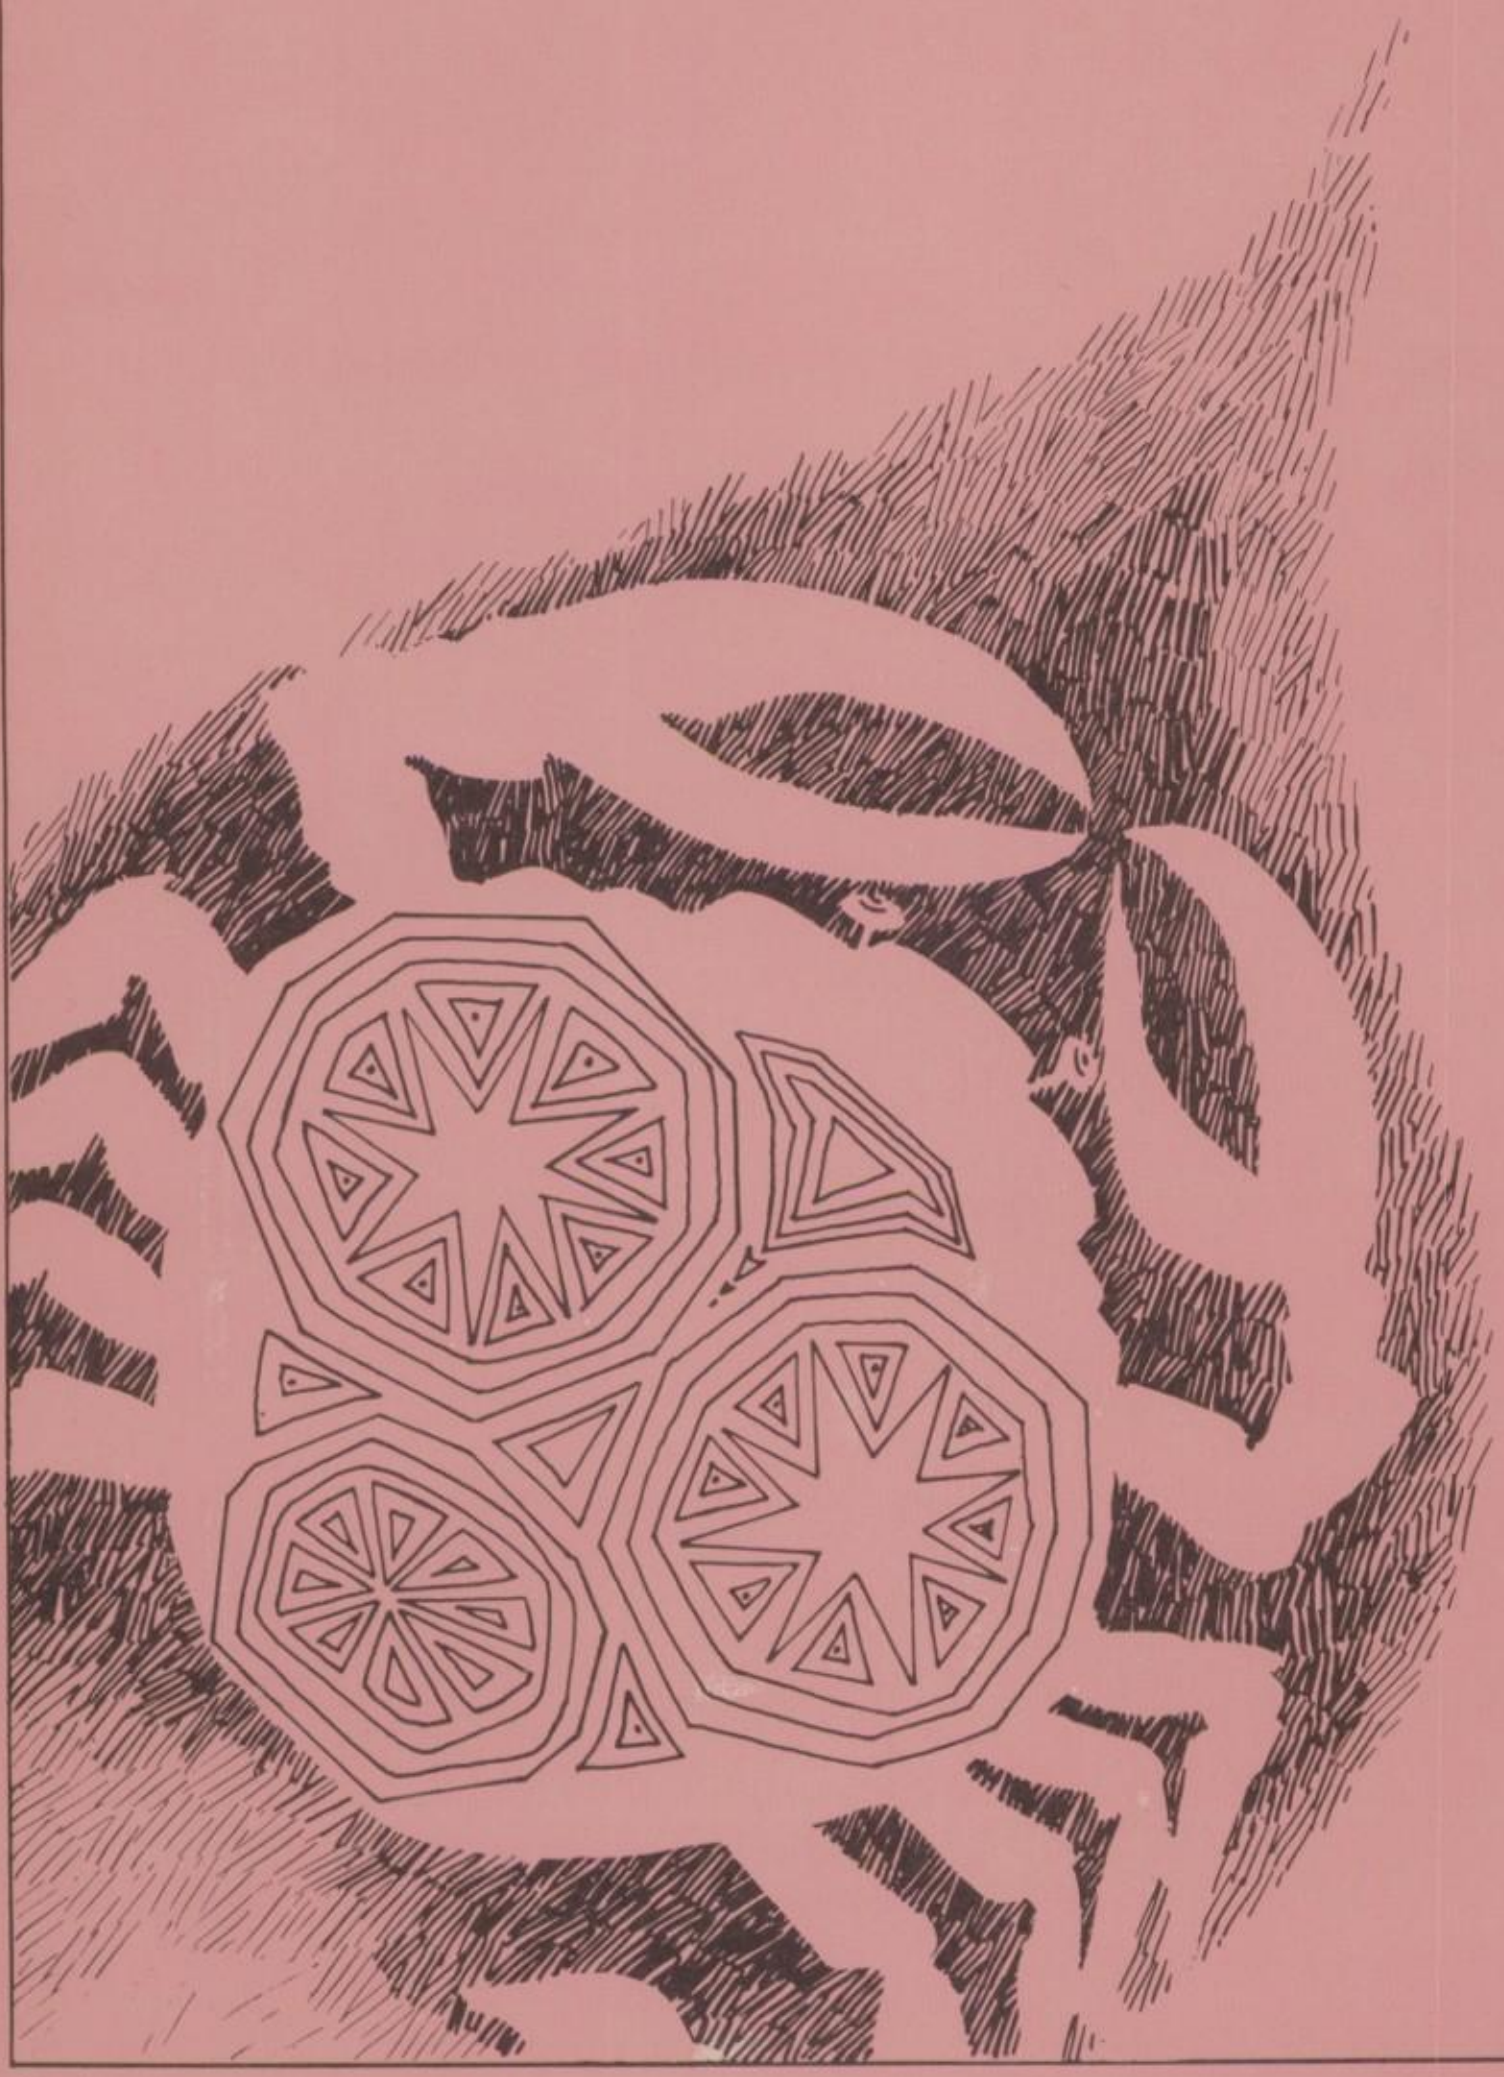
ORGANIZATIONS



Under the sign of Cancer, the crab, organizations met throughout the school year. Those involved in these organizations displayed the traits of Cancer: activeness, co-operation, leadership, and amity. Under the sign of Cancer we remember: ... Future Homemakers' "toys-for-tots" ... when Mr. Valesak spoke to the Penn-Ford Junior Historians about TAXES ... the Tri-Hi-Y's Korean Orphan ... the Spanish Club Pinatas ... when the Key Club sold Ford City Anniversary books ... tryouts for the Senior High Drama Club ... the Biology Club's sphagnum bog ... when the FTA raked leaves ... the thousands of bake sales and car washes ... FBLA's field trip to Pittsburgh ... the Saber Student Council Store ... When the Woodworking Club toured PPG and Elger ... the "quickie" trip to Phily by the '68-'69 Penn-Ford Junior Historians ... how "X" period jumbled up the whole day ... The Key Club's Christmas tree ... When the '68-'69 Junior Tri-Hi-Y sold candy apples at the Y.M.C.A. ... the National Honor Society's Christmas party ... Mayor Hand's talk on the curfew to the FTA ... signing out of homeroom to go to clubs ... Student Council campaigns ... the sense of unity we derived from our activities program.

LENAPE

Under the sign of Scorpio, the scorpion, falls Lenape Technical School. As a type of annex to our own high school, Lenape encourages investigating individual interests and developing them. Along with the work involved, the members of the senior class of Lenape remember . . . breaking away from the rest of the class and enrolling in Lenape . . . finding a school that is not as different from another as one would suspect . . . cosmetology class . . . enjoying the grease and dirt of Auto Mechanics . . . organizing and learning the principles of Distributive Education . . . meeting the computer in Data Processing . . . concocting strange mixtures in Chemical Technology . . . expanding knowledge in the area of electronics in Electronic Technology . . . messing around in Machine Shop . . . the sense of companionship and spirit at Lenape Tech.

FACULTY

Under the entire zodiac is the faculty, for they encompass a variety of traits. Throughout the years they have tried (struggled!!!!) to instruct us, they have left many things to remember them by ... Mr. Valenti's "dark lady" ... Miss Zelonka's Volkswagen ... "You know I'm not Superman!" ... "Sit down!" ... "Line up for roll call" ... "When April showers with sweetness ..." ... Li'l Buddy ... Mr. Noonan and the girls (??) ... Mr. Anderson's and Mr. Englert's movies ... sneaking out of Health early in the summer ... "Be specific, class—but watch those transitions!! ... "Bless our table conversation, Rosebud and Peaches" ... "All right, at ease!" ... I'm not ready to give my speech yet, Mrs. Jewart." ... Miss McCabe and McCat ... I think you'll find that on page 20"—Miss Walter ... We need more school spirit"—Mrs. Stull ... the field trips and the pandemonium that resulted from them ... tests, tests, tests!!! ... Do this and do this and while you're at it, do this. All is due tomorrow ... Research papers!! ... the sometimes pleasant, sometimes hilarious, sometimes annoying situations that popped up every class ... the sense of humor that most of the teachers had ... their willingness to cooperate that made every day *so* much better!

The opinion is often stated that few institutions in America change less rapidly than the public schools. However, here in the Armstrong School District we are witnessing changes that question this point of view. These changes speak well for the quality of education you are receiving and your capacity to adjust to changing times. New areas of study and new opportunities for student participation have been made available to you. They may sound commonplace when compared to the exciting and imaginative events going on about you—space travel, moon landings, and heart transplants—but these changes in your schools have been planned with you and your future in mind.

It has been said that there is nothing less practical for a young person than an education that results in a trained incapacity to adapt to change. It is the desire of this school district to fulfill its obligation to its students by preparing them to successfully cope with the world in which they live. One of the school's primary goals has been to help you think, to learn, to act independently, and to exercise sound judgement. If you have achieved even moderate success in attaining these goals, you have the tools needed to succeed in life and to live in a world of rapidly changing events.

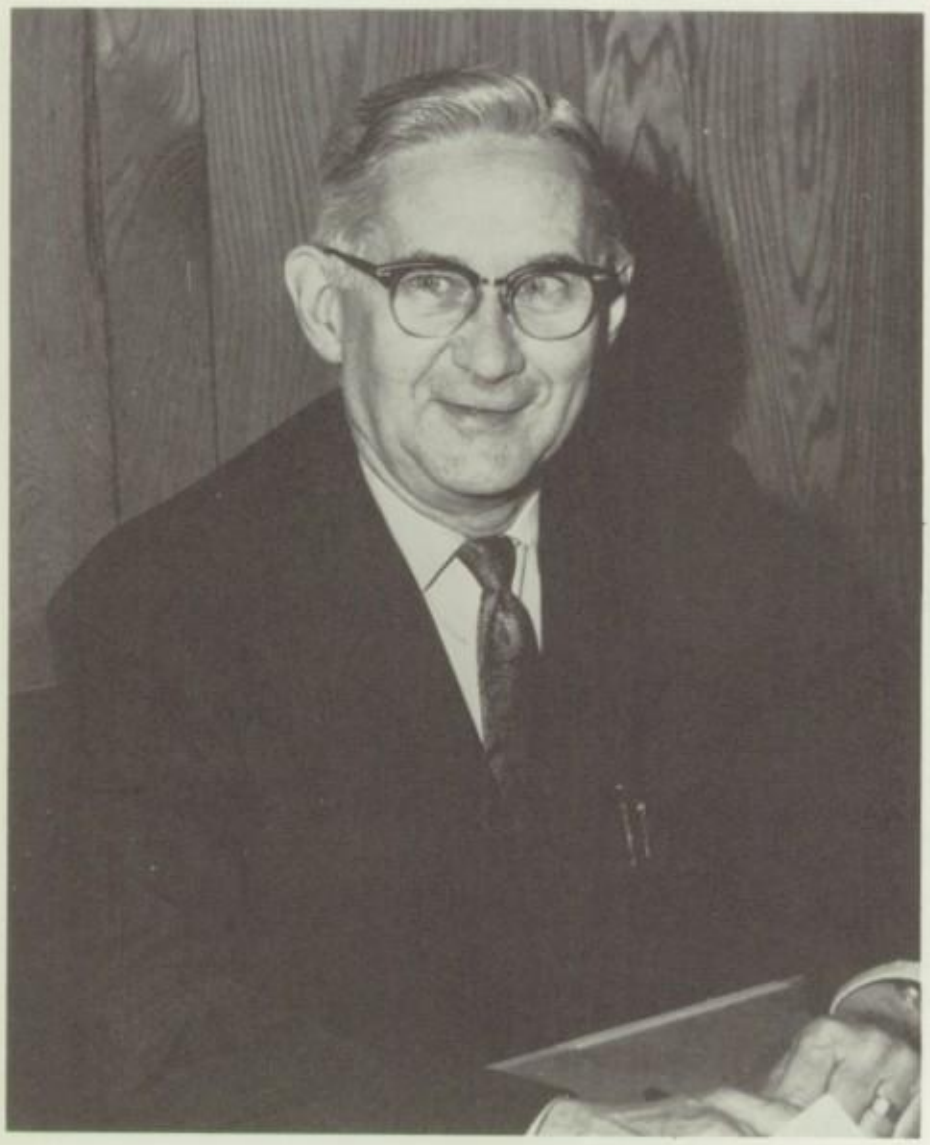
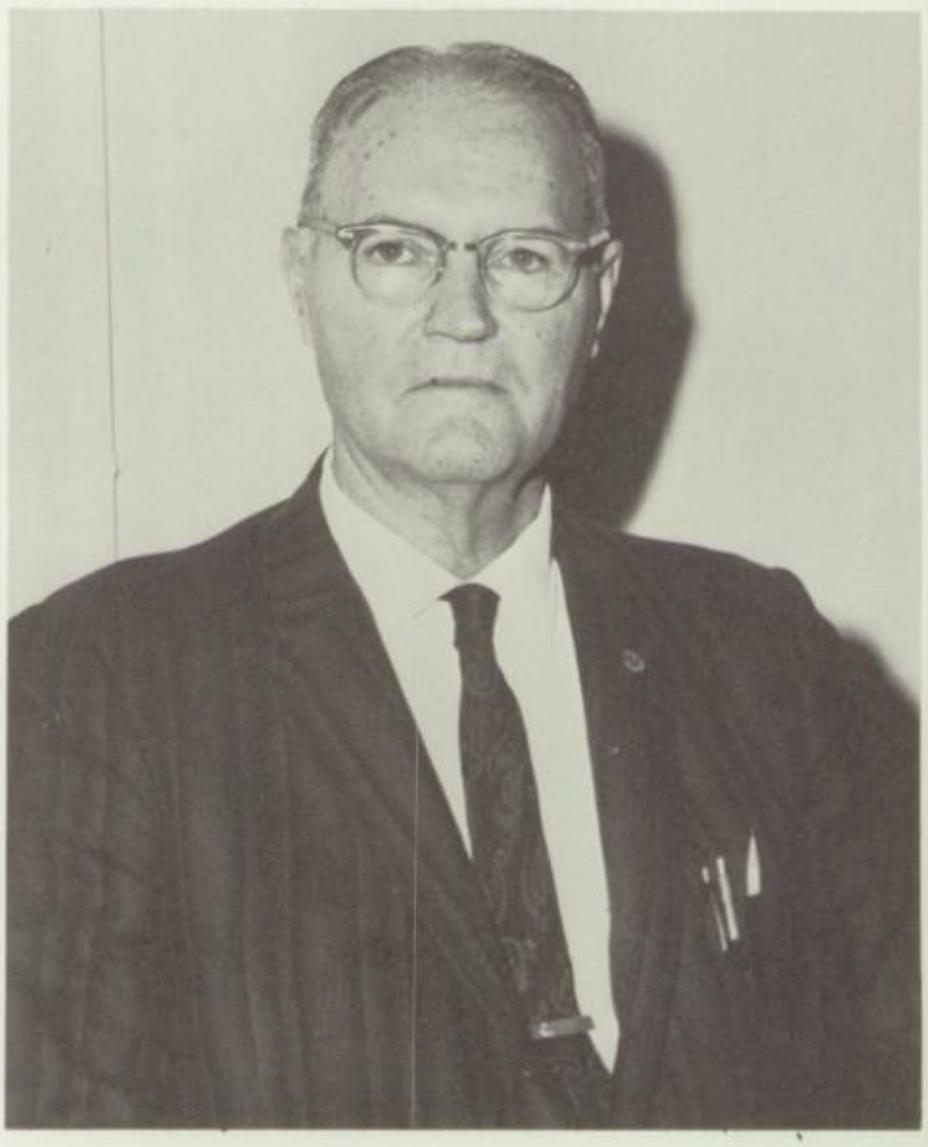
Principals



Dear Mr. Miller,

We, the Class of 1970, would like to express our thanks for the friendship, consideration, and concern you have shown each of us. You have always placed the educational standards of Ford City High School foremost in your thoughts. Because of this, you have earned our deepest respect and admiration. It is our hope that we will prove worthy of your friendship.

Sincerely yours,
THE CLASS OF '70



Dear Mr. Gregory,

The Class of '70 would like to take this opportunity to express our thanks to you also. You were our greatest aid in Junior High because we knew that if we had a problem, we could always turn to you. We would like to say thank you for the many ways you have served us.

Sincerely yours,
THE CLASS OF '70
